New Construction just blocks from the Stone Mountain trail. This gem is a light filled open floor plan delight. With real oak hardwood flooring throughout this home is picture perfect. The kitchen is a chef's delight with it's large island with veggie sink, granite counters, stainless appliances and white cabinetry. The master has a super custom closet and spa like bath with double vanities. Large secondary bedrooms with walk-in closets, that rocking chair front porch, modern fireplace, fenced in yard, back deck and custom detail work will want to call this home.
